## WINTER ICE MELTS

### Road Runner Ice Melt

Part # 5021678

10 lb Bags

**Road Runner** - Contains calcium chloride and magnesium chloride-the fastest dry de-icers.

**Road Runner** - Begins melting immediately upon impact - generates melting heat fast. Melts effectively to 150 below Fahrenheit.

**Road Runner** - Needs fewer applications than rock salt. Safe on streets, driveways, sidewalks, steps and the environment when used correctly. Avoid precast masonry/concrete steps or walkways.

**Road Runner** - Doesn't track and is odorless and colorless. Excessive amounts may cause an increase in surface flaking.

**Road Runner Ice Melt** - is one of many top quality items in our Ice Melt department.

### Premium Blended Ice Melt

**Ice Cutter** - is concentrated so a small amount will go a long way! Spread evenly over snow or ice surface at a rate of one cup per square yard.

**Ice Cutter** - will not harm grass, trees or shrubs when used as directed.

**Ice Cutter** - will not harm carpets or flooring when used as directed.

**Ice Cutter** - colorless orderless and in solution, has a consistency similar to water Leaves no dirty, oil residue which can be tracked onto carpets or floors.

**Ice Cutter** - contains potussium chloride.

Part # ICIM50

**Fast Acting - Lavamelt** is made with Calcium Chlorida Pellets, which makes it one of the fastest acting icemelts on the market.

**Hot** - the Calcium Chloride Pellets in **Lavamelt** allows it to attack the snow and ice with instant heat.

**Long Lasting - Lavamelt** goes to work immediately, but also has the added benefit of a longer working life. It is formulated to last up to 24 hours.

**Corrosion Inhibitors - Lavamelt** has added corrosion inhibitors that provides increased safety. The enhanced CMA (Calcium Magnesium Acetate) formula helps to **protect against damage to concrete**. The CMA also enhances the pH level of the soil structure

**Packaging - Lavamelt** is available in 501b bags and 501b pails. The bags are designed to be re-sealable. This avoids the clumping.

Part # ALPICMELT

### Avalanche Ice Melter

Part # ICIMAVA

**Fast Action - Avalanche** combines the most effective deicing blend, creating the desired reaction to initiate deicing and meltdown. **Avalanche** breaks the bond between the ice and the surface area. As **Avalanche** goes to work, it's time-released formula stays on the surface longer, helping to control the freeze-thaw cycle.

**Non-Tracking** - When used properly, **Avalanche** will remain where applied and will not cause any unsightly tracking or residue problems.

**Health & Safety - Avalanche** is safe to handle without protective clothing. It does not dry out or irritate the skin.

**Environmentally Formulated** - Nature's own ingredients combine for just the right formula. Unlike some deicers, **Avalanche** works to preserve "**Vegetation and Plant Life**" when used as directed. With **Avalanche** there is no slick, slimy tracking taking place make clean up virtually nonexistent.

## INFRARED HEATERS

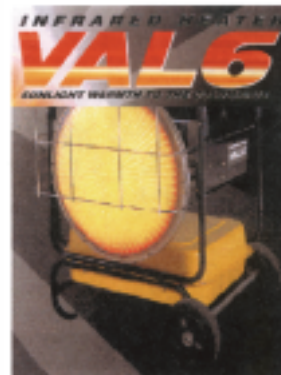

### VAL 6 INFRARED HEATER

**Heat Output -111,000 BTU, 32.5 kw**  
**Fuel source-#2 Fuel oil, Diesel or Kerosene**  
**Power Source 120V**  
**Weight - 83.3 lbs.**

**Perfect for:**

- \* **Factory, Plant, Workshop**
- \* **Outdoor projects**
- \* **Construction sites**

Part #VAL6

**Our Goal: Total Customer Satisfaction**
